ACTIVE CONSTITUENTS

Silicates equiv. to Lime	12.5	% w/v
Calcium (CA)	6.3	% w/v
Magnesium (Mg)	1.0	% w/v
Potassium (K)	5.5	% w/v
Nitrogen (N)	10.0	% w/v
Iron (Fe)	800	mg L-1
Boron (B)	250	mg L-1
Manganese (Mn)	500	mg L-1
Zinc (Zn)	300	mg L-1
Copper (Cu)	100	mg L-1
Molybdenum (Mo)	50	mg L-1

A Sustainable Soil Amendment for reducing soil acidity, sodicity and surface crusting.

ALLEVIATE PLUS supplies available calcium into the soil solution and simultaneously mobilises the fixed calcium into plant available form. It also reduces soil acidity which affects the increase of plant calcium absorption.

Also Contains: Lignosulphonates, Humates, Binding Agents, Penetrants & Surfactants.

Application Rates: 300ml - 600ml/100m² in 4 - 10 L of water. Doesn't require irrigation to wash in. Can be applied to all turf grass species.

General Information: This product is chelated (protected from becoming unavailable) with naturally occurring Lignin compounds to provide maximum foliar and root absorption, in addition to ITS surfactants and penetrants.

Compatibility: Do not mix with oil base chemicals and residual herbicides.

SAFETY DIRECTIONS: Avoid contact with skin, eyes, and avoid breathing in vapour or spray mist. always refer to sds for safety directions during use.

Conditions of Sale: The Manufacturer/Distributor warrants that this chelated trace element product contains the active constituents and chelated compounds, as specified, and it is for the purpose of correcting appropriate micro-nutrient deficiency, when used in accordance with the directions under normal conditions of use. No-one, other than the officer of the Manufacturer/Distributor, is authorized to make any warranty, guarantee, or direction concerning the product as the time, place, rate of application and other conditions are beyond the control of the Manufacturer/ Distribution.
